

Employment services for job seekers

Your potential, your future, your career

Whether you're starting your job search, aiming for career advancement or ready to explore a new industry, we're here to help you achieve your goals. At Vision Australia, we believe in your potential and are committed to empowering you every step of the way.

What we do

We provide holistic, personalised support to people who are blind or have low vision, helping you:

Build essential skills

To succeed in today's workforce.

Boost your confidence

To tackle challenges and seize opportunities.

Unlock independence

For a fulfilling and rewarding career.

Through tailored services and programs like JobAccess, we ensure you have the tools, training and support to thrive.

How we help you succeed

Our approach is about empowering you to take charge of your career with skills, strategies and confidence. Together, we'll find a role that aligns with your unique strengths, passions and ambitions.

Here's how we support you:

1. Build confidence and job readiness

- Develop skills for independent navigation and personal presentation.
- Boost your overall wellbeing to approach your job search with energy and focus.

2. Stand out in your applications

- Create polished resumes that showcase your skills and achievements.
- Master interview techniques that highlight your strengths and potential.

3. Advocate for yourself

- Learn how to communicate your value and strengths with confidence.
- Gain the skills to request workplace accommodations that support your success.

4. Leverage assistive technology

- Explore the tools and technology that empower you to work efficiently and effectively.
- Learn how to integrate assistive devices into your day-to-day workplace tasks.

Why choose Vision Australia?

We're more than an employment service - we're your partner in success. Our holistic approach ensures you feel supported not just as a job seeker but as a skilled, empowered professional ready to thrive.

Take the next step towards your dream career.
